I like that idea. I'd also like for you (or Wallis) to give an update on how Parking Day went, as a way to establish the success of parklets and lay the ground work for future parklets in the district.

For item three, I'd like to send the doc to Jim Pugh and Andrew Dutton for feedback before conducting a vote at IP. As long as that happens, I'm good to hold a vote.

Thanks

Subject: IP Committee Meeting Draft Agenda

Hi Ellen,

Attached is the draft agenda for next weeks IP committee for your review and revision. A couple notes:

1. For item 2, I would like to show the following video: <https://www.youtube.com/watch?v=oooVC3zfDc8> and talk about the success of the parklet as a way to talk about how public infrastructure projects can assist in the establishment of "third places" that are essential to successful communities.
2. For item 3, the plan is to share the list of prioritized projects and map (although not the proposed matching of development projects with improvements – I think we should wait until we get feedback from the developers on that). Do we want to potentially have a vote from the committee to recommend the order of project priority to the full board?

Please let me know your thoughts and then I'll run it by Bob. Thanks!

Josh Kreger
